

The following is 'a summery' of all the indexes of the seven books written by Zecharia Sitchin.

The 'overall index' is made by Bart Zwijnenberg (the Netherlands) in 1999-2000.

If there are comments on this index, please send them to the above mentioned address or by email: [info@pigshill-site-marrum.nl](mailto:info@pigshill-site-marrum.nl)

All Sitchin's books used for this overall index are from Avon Books, publishers at New York.

It is possible to use these index for other copies of the books, all executions, all languages, for example a copy of 'book d' in German language. Take the number of pages of that book, divide through the number of the original book (see above) and multiple with the page-number in the index below; now you have 'the neighbour-hood' in which you can find the subject for what you are searching.
